SUMMARY

Product-minded Analyst at Reliance Industries with end-to-end ownership of an industrial ML product — from requirement gathering to deployment — and business-analysis responsibility across 5 concurrent IoT and asset-analytics initiatives spanning 150,000+ assets and 10 sites. Combines a strong engineering foundation (B.Tech CS, 9.31 CGPA; ISRO internship) with stakeholder management, project planning, and vendor coordination with GE Vernova.

EDUCATION

- **Pandit Deendayal Energy University (PDEU)** Gandhinagar, Gujarat
B.Tech in Computer Science; CGPA: 9.31
Sep 2021 – May 2025

EXPERIENCE

- **Reliance Industries Limited** Navi Mumbai, Maharashtra
Analyst – Business Analysis, Digital & IoT
Aug 2025 – Present
 - **Product Ownership — GT Health Monitoring:** Owned the full product lifecycle of an in-house gas-turbine health monitoring product (failure prediction + anomaly detection with MLOps): gathered requirements from reliability engineers, defined features, coordinated the development team, and drove final deployment. Delivers 3–8 days advance failure warning, preventing unplanned outages and production losses.
 - **Multi-Project Portfolio:** Manage business analysis across 5 concurrent IoT and asset-analytics projects for rotary equipment, aligning engineering, operations, and vendor stakeholders; build Gantt-based project plans to track milestones, dependencies, and delivery.
 - **Asset Performance Management (GE Vernova):** Partner with GE Vernova on APM covering 150,000+ assets across 10 sites; core team member overseeing the APM software upgrade rollout.
 - **Early Event Detection:** Drive rollout of a failure-prediction system for 1,000 critical assets, converting model alerts into early notifications (3–8 days ahead) for operations teams.
 - **IoT Instrumentation:** Scoped and planned 3 IoT projects instrumenting ~80 rotary assets across 3 sites — improving reading accuracy, reducing manual effort, and cutting equipment downtime.
 - **MTBF Dashboard:** Defined metrics for and built a reliability dashboard consolidating asset-level incident data across multiple sites, used to track failure rates and asset health.
- **Space Application Centre, ISRO** Ahmedabad, Gujarat
Data Science Intern
Jan 2025 – May 2025
 - **Satellite Imagery Data Pipeline:** Built an end-to-end Python pipeline for satellite imagery processing and geospatial analysis at 100 m resolution, delivered to support research teams and upcoming satellite missions.
- **AM/NS India Limited** Surat, Gujarat
Web Development Intern
Jun 2023 – Jul 2023
 - **Employee Notification System:** Delivered end-to-end enhancements to an internal notification product — redesigned UI, Django REST backend, and automated company-wide email workflows.

PROJECTS

- **Air-Traffic Delay Prediction (COVID Impact Study):** Built ML models to predict U.S. air-traffic delays and translated predictions into a business-impact analysis with strategic and operational implications for the aviation industry.
- **Bone Fracture Detection from X-ray Images:** Shipped an ML-based diagnostic tool end-to-end, prioritizing an intuitive interface for real-world clinical users.
- **Health & Fitness Tracker:** Designed and built a user-facing Flask platform (login, calorie/BMI/workout tracking) with personalized content and recommendations.

SKILLS

- **Product & Program:** Requirement Gathering, Product Lifecycle Management, Stakeholder & Vendor Management, Project Planning (Gantt), Cross-functional Coordination, Business Impact Analysis
- **Domain:** Industrial IoT, Predictive Maintenance, Asset Performance Management, Reliability Analytics
- **Analytics & BI:** Power BI, Tableau, SQL, Python (NumPy, Pandas)
- **Technical Fluency:** ML (failure prediction, anomaly detection), MLOps workflows, REST APIs, Django, Git

CERTIFICATIONS

- **Understanding Incubation and Entrepreneurship**, IIT Bombay (NPTEL) — April 2024
- **Google Cloud GenAI Fundamentals** — February 2024

ADDITIONAL INFORMATION

- **Leadership:** Editor-in-Chief, department newsletter; NGO volunteer; hackathon participant
- **Achievements:** International Rank 53, Mathematics Olympiad; Black Belt in Karate
- **Languages:** English, Hindi, Gujarati (fluent); French (beginner)
